## Profile

Hi, my name is Daniel Bismire and I am a UX/UI Designer currently in my final year of a Bachelor's Degree of Design Computing. I enjoy taking on challenges as well as creating **thoughtful** and **engaging** user experiences.

## Education

Final year studying a Bachelor of Design Computing at the University of Sydney.

## Experience

### Special Broadcasting Service (SBS)

**UX/UI Design Intern** (Nov 2019-Feb 2020)

Bringing my personal **UX and UI** experience to the **SBS Design system**. Creation of assets, materials, guidelines and documentation.

**Collaborating** with all members of the team (Front-end, Back-end, Testers, Project Manager..) to support an agile environment around multiple phases of the project.

**UX role** on the **SBS Audio app**, including discovery phase and its materials (Workflow, Sitemaps, User testing reports, Prototypes..) to guide initial stakeholders' requirements and help define overall brief and estimations.

**Creation, exploration and user research** of 404 error pages, Pagination components, and **Iconography** for SBS brands.

### Special Broadcasting Service (SBS)

**Design Intern** (Nov 2018-Feb 2019)

An Internship in the UX&D department working on design projects, over the summer.

**Graphic Design** including: creation and layout of long-form articles, brand hero images and thumbnails for SBS Food, Insight & Dateline. Conduction of research and user testing on Iconography.

### Bunnings Warehouse

**Team member** (March 2018-Present)

Working in a team to provide quality customer service, and understanding customer needs. Organising deliveries, Handling of stock and money, Loss prevention and Supervising forklifts & heavy machinery to create a safe environment.

### Food By Wayne

**Caterer** (Nov 2015 – Mar 2018)

Catering and food preparation for functions including, Weddings, Birthday parties and other events. Providing quality customer service & driving the work van to functions.
